

## KENSINGTON FIRE PROTECTION DISTRICT

**DATE:** March 09, 2022

**TO:** Board of Directors  
Kensington Fire Protection District

**RE:** **Agenda Item 09**  
General Manager's Report

**SUBMITTED BY:** Bill Hansell, General Manager

---

Work on the PSB Renovation and the Temporary Facility has occupied a substantial amount of time over the past month. Highlights of that work and other regular business are noted below:

### 1. Public Safety Building Renovation –

- a. **El Cerrito Contract Reserves** – On February 10, 2022, I sent a proposal to the El Cerrito City Manager suggesting that the Fire Services Contract Reserve amount be cut by 50%, equivalent to 6-months' worth of service, which would benefit both agencies, as those funds could then be directed to the Building Capital Fund for the renovation. The result would be a reduced bond amount required to supplement the reserve funds to pay for the renovation. Not only does this have the obvious benefit to Kensington's residents of saving on loan interest, but it increases the annual net revenue of the district which ensures that the EC Contract is covered. In a very positive meeting with City Manager Pinkos and Chief Pigoni on Tuesday, February 8, 2022, we agreed to draft a contract side-letter describing the reduced reserve and hope to have that to the City Council and District Board for our April meetings.
- b. **Financing Update** – Based on the lower EC Contract Reserve requirement, I asked NHA Advisors to update the Cash Flow and Reserves charts that were previously presented to you. The attached versions show that the re-assigned reserve funds, i.e. +/- \$1.7M moved from EC Reserves to PSB Capital Reserves, changes the supplemental loan amount from \$4.6M down to \$3.5M. This reduces the annual debt service from \$300K to \$229K per year, thus saving the district \$71K annually. Please note that this "debt service" includes both principal and interest. The March 2022 Kensington Outlook stated, "*Interest in the amount of \$300,000 per year would service the debt.*" That is incorrect as the annual payment includes principal, not just interest. To clarify the expenses, I have added a breakdown of the total costs onto both of the charts. As you can see in the Cash Flow Chart, each year there will be a beneficial net gain between the district's revenue (the blue diagonal line) and the expenses plus the debt service. This gain allows for contingency spending if needed or otherwise contributes to our reserves. The Reserves Chart now shows the reduced amount of "Emergency Operating Reserve", aka the EC Contract Reserve, in grey that equals six-months of our annual expenditures. The light grey bars represent our rolling stock reserves for

the scheduled replacement of our vehicles. The blue bars show the ongoing reserves for the district's future. Overall, this new financial projection is very positive news for our ability to complete the renovation while continuing to maintain reserves for other needs and emergency situations.

- c. **Approval of Variance for Deck Enclosure** – President Nagel and I presented the variance request to enclose the upper deck to the Zoning Administrator on Monday, March 7, 2022. Prior to the hearing, the planners issued the attached staff report that recommended approval. A few public comments were received expressing concern about mechanical noise from rooftop equipment, and general construction disturbances. We stated that both issues were raised in the KMAC hearing, and the district would endeavor to look into options to reduce equipment noise, and would adhere to County standards on construction controls. The Zoning Administrator approved the variance request with the condition that the district follow-up on the acoustical concerns and also document the existing site conditions prior to construction in order to track any impact of the construction.
- d. **Renovation Cost Estimate** – As I stated in my Temporary Facility report, the prior allocation for that work was \$1.5M, while the more recent estimate is \$1.15M. With additional value engineering I described in the report, specifically with regards to the tent structure, I believe the total will be further reduced. For the PSB Renovation, the December 1, 2021 cost estimate for the building was \$5.45M. The revised estimate on February 28, 2022 is \$5.53M. Note that the estimate includes a Design and Estimating contingency of 10% and also a mid-point escalation of 8.6%, so we are attempting to be conservative in our projections. While I am holding a total project cost of \$9.5M in the NHA Financial Study, it may be that the reduced cost of the temp facility plus the current estimate for the renovation, with added soft costs for design, engineering, permitting, etc. do not require that total amount of funding. We will proceed with that total assumption, though, until construction bids are received.
- e. **Meetings with Shift Personnel on Plan Review, Material Finishes, Etc** – The architects and I met with all three shifts at the PSB over the course of two weeks to review draft material selections, details on equipment and storage, and the scope for electrical, a/v, security, etc. There was a lot of discussion focused on the garage layout to increase efficiency and the tight quarters for the increasing engine sizes. In particular, the very minimal clearance (1/2") of the garage door openings for the engines was addressed by the decision to lift the headers and switch to coil doors, which should allow an additional 8" of clearance. Subsequent meetings will be held as the details are refined and documented.
- f. **Construction Document Progress** - The drawings are approximately 50% through the Construction Document Phase (CD's). That phase should be mostly complete by the end of March, at which point the Permit Set will be ready for submittal. Further drawing refinements will be made in response to any comments from the Building Department, and the Permit Set will be augmented to become the Bid Set.

In terms of architecture expenses for the project, the current MarJang invoice in the Monthly Transmittal brings our expenses-to-date to \$282,487.35, or 58% of that contract total. The separate invoice from ZFA Structural Engineers brings that total expense to \$33,795, or 54% of the contract total. These percentages are on-track with what would be expected for this point in the work.

- g. **Additional Structural Analysis** – In the February board meeting, the proposal by ZFA to further define the benefit of the structural improvements against the susceptibility of potential seismic events was approved. ZFA expects to finish that study in the next two weeks, and I will include it in the April meeting packet.
- h. **CC County Building Department Pre-Permit Submittal Review** – I met with the design/engineering team and the heads of the CC County Building Department and Planning Department in an informal pre-permit submittal review to present an overview of the renovation scope and the code assumptions we are adhering to. The department heads confirmed the code compliance, including the accessibility requirement for the elevator and other associated details. The chief structural inspector agreed to hold a separate meeting to review the structural drawings with the engineers, which is scheduled for Friday, March 11, 2022. The overall goal of these meetings is to streamline our permit approval so there are no unexpected additional requirements. I appreciate the County's willingness to assist us to that end. The County officials believe that permit review should take from 4 to 6 weeks, depending on their workload at the time of submittal. Now that the variance has been approved and once the 10-day appeal period expires, I believe we will have completed all of the Planning Department's requirements, so my hope is that the construction permit will be issued as soon as the building plan check staff finish their review.
- i. **Renovation Schedule** – Given the accomplishments above, we hope to submit the building permit drawings at the end of March and obtain the permit by the beginning of June. While we can put the drawings out for bid at that time, we may want to wait until the permit is issued. In that case, the bid notice would go out in June and bids would be received in July. A brief period of bid review is required to check compliance. The winning bid could potentially be presented at the August 10, 2022 board meeting, with the contract finalized and a *Notice To Proceed* issued shortly after. That would also be the date for the bond approval. If the Temporary Facility project is on-track, as described separately, for move-in by August 31, 2022, then the demolition phase of the PSB could begin in September. We are still anticipating an 18-month construction period.
- j. **Solar Power Option** – In 2012, the district explored the option for solar PV panels to be added to the PSB, and it was determined that the time that it would not be worth the cost. This is a natural point to reconsider that option. I discussed accommodating a system on the roof with the architects and engineers. While that is the common place to install PVs, there are space limitations due to mechanical equipment, skylights, and communications equipment. Roof installation would also require strengthening of some of the joists to

accommodate the extra load. Therefore, I asked ZFA for a proposal to engineer a canopy structure in the rear parking lot, against the retaining wall, as an option for the district to consider. The proposal is attached and would cost \$10,000 for design. Prior to recommending that we proceed with this service, I intend to check with the equipment providers to study both the rooftop location and the canopy location to determine the feasibility for either or both, and the associated cost/benefit. If it appears that a specific proposal makes sense, then I will bring that to the board for you to consider. There are related questions that a potential PV system raises such as emergency battery options for the building, but we can consider those after the primary assessment is made. This is also something we could consider as an Add/Alt to the bidding, although we would have to at least undertake the engineering cost to do that. The County Planning Department confirmed that a solar panel installation against the retaining wall would not require any special approval and would be allowed in the rear yard setback area.

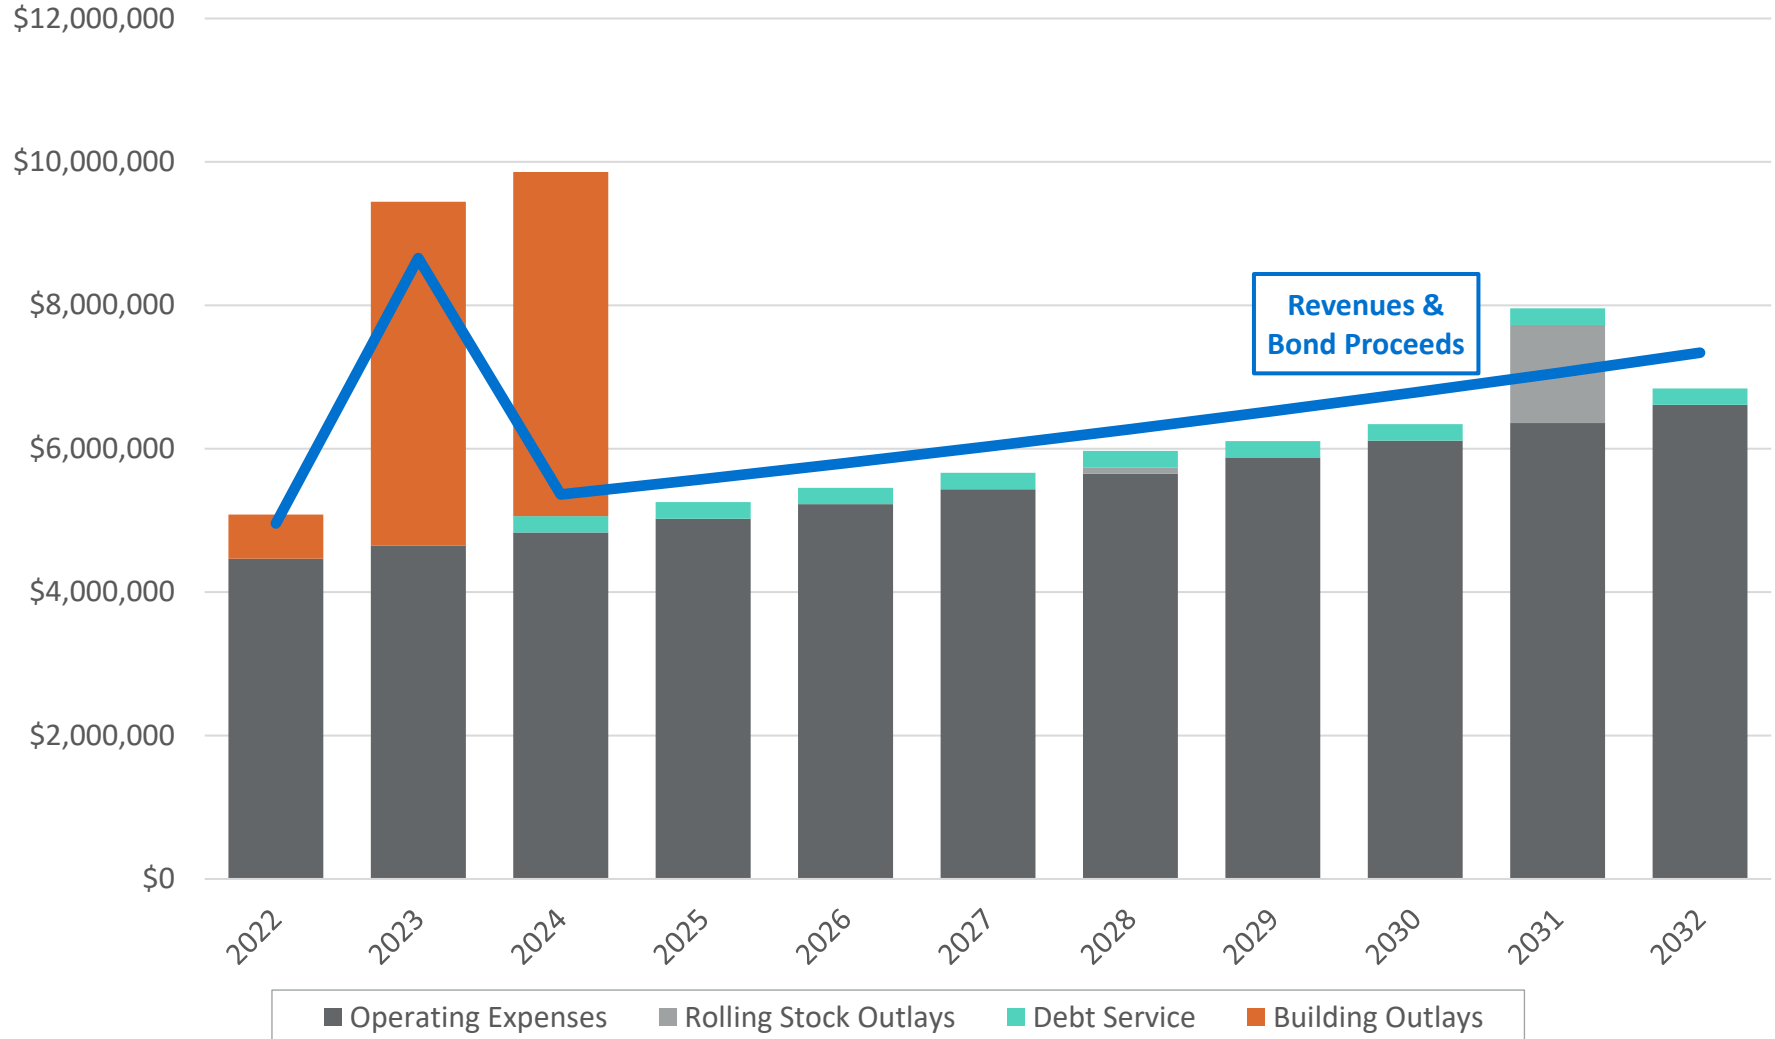

2. **East Bay Wildfire Prevention and Vegetation Management JPA** – The March 4<sup>th</sup>, 2022 general meeting was canceled. Please see the attached correspondence from the organizing committee on activity since the last meeting.
3. **Diablo Firesafe Council 2021 Annual Report** – Please see the attached annual report.
4. **California Uniform Public Construction Cost Accounting Act** – Attached to this report is an FAQ on the CUPCCA Act. In brief, the Act allows public entities to use an informal bidding process that is less burdensome than typical formal bidding. Under our current Public Contract Code conditions, we are required to bid any project over \$25K. By adopting a resolution to follow the CUPCCA Act, we would be able to negotiate contracts up to \$60K directly, and could follow informal bidding procedures for projects up to \$200K. Anything over \$200K would require normal bidding procedures. The FAQ covers details on the process. I have also attached a list of participating agencies. There are 1,473 currently registered with CUPCCA in California and approximately 45 in Contra Costa County alone. It is a popular program that requires some minor administration work, but overall can save a lot of time and money when undertaking smaller projects. Per the FAQ, an agency only has to pass a resolution declaring that it is a part of the CUPCCA Act once, and then it can benefit at any time in the future. Although the Act will not apply to the PSB Renovation Project, we may find it useful for other small projects down the line. I would like to bring a draft resolution for consideration in next month's meeting, but wanted to provide you with the preliminary background info now.
5. **Grant Writer Activity** – I notified our grant writer of the decision to drop the FEMA HMGP pursuit. I have requested a meeting to discuss whether to proceed on other funding opportunities, or if their services are not a good match for our agency. While the consultant has regularly forwarded public notices on various grant options, they all require more extensive background work on our part in order for the grant writer to pursue them. For example, the grant writer usually requests prepared scope of work studies with project estimates and preliminary schedules prior to moving forward with their work. To date, we do not have that kind of material prepared and it would take

additional labor and expertise to create it. It may be necessary to find a grant writer who can provide that service as well, or to hire a consultant to sufficiently detail district projects prior to any further work by the grant writer.

6. **Form 700 Filings** – Filings are due to the County by April 1<sup>st</sup>, 2022. I will follow up with reminders over the next two weeks. EPC members must also file the form annually.
7. **Education Requirements** – Not all of the Directors have completed the required courses and I will endeavor to follow-up individually. It would be helpful if the Directors checked with the CSDA on their own records, since the completion and tracking can be pursued individually.

# KFPD Cash Flow Chart – 2022 to 2032

- ▶ Reducing the El Cerrito Contract Reserves by 50% allows +/- \$1.7M to move to PSB Capital Reserves Fund
- ▶ \$229K of annual debt service is estimated to generate \$3.5M for the Renovation Project to supplement the existing PSB Capital Reserves.
- ▶ Project Estimate:  
(Renovation & Temp Facility)  
\$6,000,000 Reserves  
+ \$3,500,000 Bond  
= \$9,500,000 Total
- ▶ Bond Information:  
Annual Debt Service = \$229,000  
Total Debt Service = \$6,876,000
- ▶ Total Cost Over 30 Years:  
\$9,500,000 Project Cost  
+ \$3,343,000 Interest and Fees  
- \$232,000 Reserve Fund  
= \$12,611,000 Total

# KFPD Reserves Chart – 2022 to 2032

## County Zoning Administrator

Monday, March 7, 2022 – 1:30 P.M.

### STAFF REPORT

Agenda Item # \_\_\_\_\_

---

<b>Project Title:</b>	Variance for the Kensington Fire Station
<b>County File(s):</b>	#CDVR21-01040
<b>Applicant:</b>	Bill Hansell
<b>Owner:</b>	Kensington Fire Protection District
<b>Zoning/General Plan:</b>	Single-Family Residential (R-6), Tree Obstruction of Views Combining District (-TOV), Kensington Combining District (-K) / Public-Semi-Public (PS)
<b>Site Address/Location:</b>	215 Arlington Ave, Kensington, CA 94707 / APN: 570-050-021
<b>California Environmental Quality Act (CEQA) Status:</b>	Categorical Exemptions – Class 1: CEQA Guidelines Section 15301(e) – Existing Facilities
<b>Project Planner:</b>	Everett Louie, Planner I (925) 655-2873 <a href="mailto:Everett.Louie@dcd.cccounty.us">Everett.Louie@dcd.cccounty.us</a>
<b>Staff Recommendation:</b>	Approve (See Section II for Full Recommendation)

---

### I. PROJECT SUMMARY

A request for approval of a Variance to allow a 15'-1/4" front yard setback (where 20-feet is the minimum) and a 3'-5" side yard (where 5-feet is the minimum) to enclose an existing 345-square-foot, second story deck space on the existing Kensington Public Safety Building. Other work not related to the Variance request will include a full interior remodel of existing interior space and the installation of an interior elevator and exterior repaving of the existing parking lot and walkways.

### II. RECOMMENDATION

The Department of Conservation and Development, Community Development Division (CDD) Staff recommends that the Zoning Administrator:

1. APPROVE the Variance (County File #CDVR21-01040), based on the attached Findings and subject to the attached Conditions of Approval.

2. DIRECT Staff to file a Notice of Exemption.

### **III. GENERAL INFORMATION**

- A. Environs – The subject property is a 10,620-square-foot parcel that currently contains the Kensington Public Safety Building which houses the Kensington Fire Protection Department. The subject parcel and parcels surrounding the site are zoned R-6, -TOV, and -K. The subject parcel as designated in the General Plan is PS (Public-Semi-Public) while the surrounding parcels are SH (Single-Family Residential – High Density). The property slopes down from the rear of the property 544 feet above sea level (northeast) toward the front 515 feet above sea level (southwest)
- B. General Plan – The subject property is located within a Public-Semi-Public (PS) General Plan land use designation.
- C. Zoning District – The subject property is located within a Single-Family Residential (R-6) Zoning District, Tree Obstruction Combining District (-TOV) and the Kensington Combining District (-K).
- D. California Environmental Quality Act (CEQA) - The proposed project is categorically exempt under Class: CEQA Guidelines Section 15301(e), regarding “additions to existing structures provide that the addition will not result in an increase of more than: (1) 50 percent of the floor area of the structures before the addition, or 2,500 square feet, whichever is less.”

The proposed project will include enclosing a 345-square-foot second story deck addition. This square footage does not exceed the 2,500-square-foot threshold. Therefore, the proposed project qualifies for a Categorical Exemption under CEQA Guidelines Section 15301(e).

- E. Lot Creation: The subject property is known as lots 21 and 22 of Berkeley Highlands Block C recorded on April 17, 1912.
- F. Prior County Files Related to the Property:
  - a. County File 286-47 – A Land Use Permit to construct a building for the Fire and Police Departments. This was approved by the Board of Supervisors on November 10, 1947.

- b. County File 241-67 – A Land Use Permit to construct a Fire House in an R-6 Zoning District. This was approved by the Board of Supervisors on January 14, 1969
- c. County File CDLP04-2049 – A Land Use Permit to amend County File 241-67 to construct a 74-square-foot second story office expansion with a variance request to have a 16-foot front setback. This was approved by the Zoning Administrator on July 26, 2004.

#### **IV. SITE/ AREA DESCRIPTION**

The subject property is a 10,620-square-foot lot that currently contains the Kensington Public Safety Building. The parcel is located on the east side of Arlington Avenue, approximately 300 feet south of the intersection of Oberlin Avenue and Arlington Avenue. The existing building is currently the home of the Kensington Fire Station. The existing building is a 5,788-square-foot, two-story building. The site currently has 9-existing parking spaces located in the rear. The site is accessed via Arlington Avenue which it fronts. The existing structure was approved for a reduced front yard variance under County File 286-47. As currently built, the existing Public Safety Building is already at Variance, 15'-1/4" setback from the front property line and 3'-5" setback from the northern side property line. Surrounding parcels are all single-family residences as the Public Safety Building is located in a large R-6 district.

#### **V. BACKGROUND**

On December 9, 2021, the applicant submitted a Variance application to allow for a 15'-1/4" front setback (where 20-feet is the minimum) and a 3'-5" side yard setback (where 5-feet is the minimum) to enclose an existing 345-square-foot, second story deck space. Additional work not related to the Variance includes interior renovations and exterior improvements. On January 6, 2022, Staff sent out the Notice to Render an Administrative Decision. Staff received six emails containing comments and requests for public hearings from the property owners of 220 Amherst Avenue, Kensington, 41 Ardmore Road, Kensington, 286 Grizzly Peak Blvd, Kensington, 230 Amherst Avenue, Kensington, 235 Amherst Avenue, Kensington and 213 Arlington Ave, Kensington. The commenter's letters are attached to this Staff Report.

## **VI. PROJECT DESCRIPTION**

A request for approval of a Variance to allow a 15'-1/4" front yard setback (where 20-feet is the minimum) and a 3'-5" side yard (where 5-feet is the minimum) to enclose an existing 345-square-foot, second story deck space on the existing Kensington Public Safety Building.

Other work that does not require a Variance will include a full interior remodel of existing interior space and the installation of an interior elevator. The interior changes will consist of replacing existing office and conference rooms on the 1<sup>st</sup> floor with a new meeting, storage, administration room and a bathroom. Interior changes to the 2<sup>nd</sup> floor will consist of replacing existing office space with a new exercise room, new bathrooms, expanding the dayroom and the creation of two new offices with the enclosed balcony space.

Exterior work will also include repaving the existing parking lot and providing one American with Disabilities Act (ADA) compliant parking space, walkways and roof improvements, which does not require a Variance. Roof improvements include the removal of existing skylights and installation of a new skylight, new elevator overhead shaft, replacing the existing roof covering with a single-ply roof membrane and matching fascia and parapet for the proposed enclosed roof area. The new roof above the enclosed deck space will have the same pitch as the existing roof. The project will not be expanding the building footprint in any direction.

## **VII. AGENCY COMMENTS**

- A. Kensington Municipal Advisory Council (MAC): The Kensington MAC scheduled this project during their January 25, 2022, meeting. The KMAC voted 4-1 in favor of recommending approval of the project.
- B. East Bay Municipal Utility District (EBMUD): Comments were solicited from EBMUD and in a response letter dated January 10, 2022, EBMUD requested that the applicant contact EBMUD for further information.
- C. Contra Costa County Mosquito & Vector Control District: Comments were solicited from the District and in a response letter dated December 16, 2021, the District stated that they had no comments.
- D. The application was routed to Building Inspection Division of Contra Costa County, Environmental Health Department of Contra Costa County, the Kensington Fire

District, Stege Sanitary District, and the City of El Cerrito, however, no responses were received at the time of this staff report preparation.

## **VIII. PUBLIC COMMENTS**

On January 6, 2022, a “Notice of Intent to Render Administrative Decision” for the proposed variance was mailed to property owners within 300 feet of the subject property. The letter advised of a noticing period extending through January 17, 2022. Six emails were received requesting a hearing for the proposed project. Below is a summary of the request for hearing points along with staff responses.

### **A. Minoo Taheri and Robert Becker of 220 Amherst Avenue, Kensington.**

- **Comment:** Minoo Taheri and Robert Becker requested a public hearing to better understand what is being proposed.

Staff Response: County Staff sent a follow-up email on January 10, 2022, confirming the request for a public hearing and inquired about any potential concerns and questions the neighbors may have. Staff has not received any specific questions or concerns from 220 Amherst Avenue prior to the preparation of this staff report.

### **B. Elaine Shelton of 41 Ardmore Road, Kensington.**

- **Comment:** Elaine Shelton requested a public hearing because “the building is a public building therefore a public hearing is in order.”

Staff Response: County Staff sent a follow-up email on January 11, 2022, confirming the request for a public hearing. Staff has not received any specific questions or concerns from 41 Ardmore Road prior to the preparation of this staff report.

### **C. Jim Watt of 286 Grizzly Peak Boulevard, Kensington.**

- **Comment:** Jim Watt requested a public hearing and expressed concern over the reconfiguration of living space within the building, the construction of the conference/meeting room located on the 1<sup>st</sup> floor, the amount of off-street parking and the need for the elevator.

Staff Response: The project proposes to enclose an existing 345-square-foot deck

from unconditioned space to conditioned space. Because this area is already existing, the building footprint will not be expanding outwards, rather, the project is merely enclosing an existing space. The Contra Costa County Zoning Code does not require interior living space to be used a certain way, this is left to the discretion of the property owner and applicant. Currently, the site has nine parking spaces. The project will reconfigure the parking spaces to include an ADA compliant space. The project will not expand the number of dorm units to house personal on-site. As proposed, the fire station will have six beds. The number of beds is less than the amount of available parking on site. Additionally, there is no established parking standards for a fire station. Therefore, Staff concludes that the current parking configuration is sufficient. As stated above, there will be one ADA compliant space. The need for an elevator is at the discretion of the applicant and the property owner and will conform to the California Building Code. The Contra Costa County Zoning Code does not restrict development of an elevator that is located within the interior of a building. Moreover, the variance request is for the enclosure of the second story deck and not for the installation of the elevator.

**D. Ken Finney of 230 Amherst Avenue, Kensington.**

- **Comment:** Ken Finney is concerned that the proposed elevator, exhaust fans on the roof and existing air conditioning units will cause excessive roof top noise.

Staff Response: This project is exempt from the Kensington Combining District because public buildings do not have to go through Kensington Design Review (Contra Costa County Code Section 84-74.604 - Exemptions). The elevator will be placed in the center of the building with the mechanical equipment located within the interior of the building. The placement of the elevator and equipment within the building will reduce the amount of noise that may be audible away from the adjacent parcels. The existing building as currently built contains electrical appliances such as air conditioning unit and exhaust fans on the roof. These uses have been established here for years and will not be expanded upon for this project. Moreover, the variance request is for the enclosure of the second story deck and not for the installation of the elevator or existing conditions of the building.

**E. Shirley Spiller of 235 Amherst Avenue, Kensington.**

- **Comment:** Shirley Spiller requested a public hearing because she states that she does not have the expertise to read architectural plans and does not understand the project and that she would like to have a public hearing to fully comprehend

what is being proposed.

Staff Response: County Staff has scheduled this public hearing in response to the comments received by Shirley Spiller. During the public hearing, the applicant and architect will be available for any questions from the public.

**F. Augusto Llerena of 213 Arlington Avenue, Kensington.**

- **Comment:** Augusto Llerena is opposed to the development of the property because the proposed addition will “reduce sky views and light,” for his property.

Staff Response: The General Plan policies for the Kensington area require review of new residential development and consideration to be given to non-residential development. The project is not a new residential development and has been existing at the current location since the early 1970’s. The overall height of the building will not be increasing, and the building footprint is not increasing outwards. Enclosing the approximately 345-square-foot second-floor deck will not substantially reduce the amount of light access that reaches 213 Arlington Avenue as the enclosure will not expand more outwards. Additionally, the R-6 zoning district for the subject property allows for building to have a total height of 35-feet or 2 ½ stories. The building will maintain its existing height of 23’-7” and will not exceed 2 stories at any point which complies with the regulations of the County ordinance code. Therefore, staff finds that this variance request is compatible with the R-6, -TOV and -K, zoning distinct.

**IX. STAFF ANALYSIS AND DISCUSSION**

- A. General Plan: The subject property is located within the Public and Semi-Public (PS) General Plan land use designation. This designation allows for properties owned by public governmental agencies such as libraries, fire stations, schools, etc. Generally, uses on PS land are non-urban uses. The project is a variance for an existing fire station with a minor expansion to enclose an existing second story deck. As stated in the General Plan policies related to Kensington, fire stations are compatible uses with this designation. Moreover, this particular fire station has already received an entitlement with its approval in County File 241-67. As such, the proposed development is consistent with the Public and Semi-Public land use designation.
- B. Zoning: The subject property is located within the Single-Family Residential (R-6) zoning district which is intended to promote the development single-family

residences and of those uses auxiliary to single-family residential development. While a fire station is not inherently a single-family use, it is an allowed use under Contra Costa County Code Section 84-4.404 – Uses – Requiring land use permit – publicly owned buildings and structures. A fire station is a publicly owned building, and as such, is an allowed use within the R-6 zoning district with approval of a Land Use Permit. County File Land Use Permit 241-67 was approved by the Board of Supervisors to establish a fire station within a R-6 zoning district. Therefore, the project is an allowed use.

The existing fire station was approved and built at a variance. The proposed project would not encroach further than what was previously approved. The proposed project does not change the established fire station use for the subject property or surrounding area. Therefore, the proposed project is consistent with the purpose of the R-6 zoning district.

The subject property is subject to the R-6 Development Standards. The new 2<sup>nd</sup> story deck enclosure does not meet current R-6 setbacks but is consistent with all existing setbacks established for the building at the time of construction. However, because the project is proposing to enclose a deck, a variance for a reduced front and side setback was submitted. Staff’s recommending approval of this variance request is in section **Variance Findings** in the attached Findings and Conditions of Approval:

Development Standard	R-6 Minimum	Subject Property
Lot Area	6,000 square feet	10,620 square-feet
Average Lot Width	60 feet	Approximately 99 feet
Building Height	35 feet; 2.5 stories max	23’ – 7”; 2 stories
Side Yards	5 feet min; 15 feet aggregate	North side: 3’-5” (existing) * South side: 17’-1” (existing)
Front Yard Setback (Arlington Ave)	20 feet	15’- 1/4” (existing) **
Off-Street Parking	No standard	9 regular 1 ADA

\* Variance request for the 3’-5” side setback. \*\* Variance request for the 15’-1/4” front setback. Building footprint is not expanding, all setbacks are existing.

Parking Analysis: There are no specific parking standards for a fire station in the Contra Costa County Code. However, the site currently has nine parking spaces

that were established when the building was first built. The project includes reconfiguration of the existing parking area to provide one ADA compliant space for a total of nine parking spaces. The use of the building will be limited to fire district personnel as the police staff are no longer housed in this building. Previously, the number of personal in the building at any given time included the following number of personal: 8-9 Police Department staff and three Fire Department staff. Now that the Police Department has left the building, the total number will be three firefighters per shift. Additionally, the project will create two offices which are used for fire personnel currently at the site. As such, the creation of office space will not induce the need for more parking.

The Tree Obstruction of Views Combining District (-TOV) does not apply to this project as there are no trees impacted by the project. The Kensington Combining District (-K) does not apply to this project as the following development is exempt from the requirement of the Kensington Combining District under 84-74.604 – Exemptions as the project is a public building.

- C. Appropriateness of the Use: The proposed project will be to enclose an existing 2<sup>nd</sup> story deck within an existing fire station. The fire station was approved in 1967 and has been serving the community of Kensington since. The project is not expanding the existing footprint. The enclosed deck portion will be setback at the exact same distance as the lower level currently is. The enclosure of an existing deck space will not impose any burdens on the adjacent residential lots and does not encourage any additional development which would be inconsistent with the area. Thus, the project is appropriate for the lot and the surrounding area.

## **X. CONCLUSION**

Staff finds that the proposed development is consistent with the Public and Semi-Public General Plan land use designation, complies with the intent and purpose of the Single-Family Residential (R-6), TOV, -K zoning district. Therefore, staff recommends the Zoning Administrator approve County File #CDVR21-01040, subject to the attached Findings and Conditions of Approval.

Attachments:

1. Staff Report
2. Findings and Conditions of Approval
3. Letter of Opposition and Request for Public Hearing
4. Maps – Parcel Maps, Aerial Map, Zoning Map, General Plan Map
5. Agency Comments
6. Project Plans

**FINDINGS AND CONDITIONS OF APPROVAL FOR COUNTY FILE #CDVR21-01040;  
BILL HANSELL (APPLICANT) AND KENSINGTON FIRE PROTECTION DISTRICT  
(OWNER):**

**I. Growth Management Performance Standards**

1. Traffic: The project is for the enclosure of a portion of an existing second level deck. The project will not generate any additional traffic trips to and from the project site. The applicant is not required to prepare a traffic report pursuant to the 1988 Measure C requirements, and the project is not anticipated to increase traffic trips within the immediate neighborhood.
2. Water: The subject property currently receives water service from East Bay Municipal District. The enclosure of a portion of an existing second level deck will not increase the need for water on the site.
3. Sanitary Sewer: The Growth Management Program (GMP) requires that new development demonstrate that adequate sanitary sewer quantity and quality can be provided. The subject property currently receives sanitary sewer service from Steve Sanitary District. The enclosure of a portion of an existing second level deck will not increase the need for sanitary services.
4. Fire Protection: The subject property is within the Kensington Fire Protection District area. The enclosure of a portion of an existing second level deck will not generate more demand for fire protection facilities at the site.
5. Public Protection: Public protection standards under the GMP require that a Sheriff facility standard of 155 square feet of station area and support facilities per 1,000 in population shall be maintained within the unincorporated area of the County. The project will not increase the population and thus will not increase the demand for police service facilities.
6. Parks & Recreation: The project will not increase the demand for parks or recreation facilities, as the project will not increase housing stock in the unincorporated area of the County.
7. Flood Control & Drainage: The parcel is located in flood zone X. Additionally, the project will not increase the amount of impervious surface substantially that would

change existing drainage patterns. Therefore, the project will not create a hazard associated with any existing flood hazard condition.

## **II. Variance Findings**

- 1. Required Finding: That any variance authorized shall not constitute a grant of special privilege inconsistent with the limitations on other properties in the vicinity and the respective land use district in which the subject property is located.***

Project Finding: A variance was originally granted for the existing building to allow for the maximum use of the site for the public safety building. The project is enclosing an existing deck and is an extension of the existing building elevation and does not create a smaller side yard or front yard than what currently exists. This deck is already built at a variance and enclosing the deck would not further exacerbate the front setback. Therefore, the variance would not constitute a grant of special privilege inconsistent with the limitations on other properties in the vicinity and the respective R-6 land use district in which the subject property is located.

- 2. Required Finding: That because of special circumstances applicable to the subject property because of its size, shape, topography, location or surroundings, the strict application of the respective zoning regulations is found to deprive the subject property of the rights enjoyed by other properties in the vicinity and within the identical land use district.***

Project Finding: The building is currently existing in the current location since the construction in the 1970's. The project is utilizing the existing space which limits the amount of area where the project could be. The existing building was built towards the street side of the parcel due to there being the Hayward Fault Seismic Hazard Zone in the rear, this prevented the building from being built further in the rear yard. As such, the only option to increase conditioned space is to enclose the existing 2<sup>nd</sup> story deck. Additionally, the building currently sits at a 15' - ¼" front setback and a 3' - 5" side yard setback. The proposal simply encloses a portion of an existing second level deck that does not further encroach into any setback. The enclosure remains flush with this established non-conforming side yard and front yard and does not create a smaller side yard. Thus, strict application of the R-6 zoning regulations would deprive the subject property of the rights enjoyed by other properties in the immediate vicinity and within the identical land use district.

- 3. **Required Finding:** That any variance authorized shall substantially meet the intent and purpose of the respective land use district in which the property is located.*

Project Finding: The overall intent and purpose of the R-6 is to promote the development of single-family residences and those uses auxiliary to them. While a fire station is not inherently a single-family use, it is an allowed use under Contra Costa County Code 84-4.404 – Uses – Requiring land use permit. As such, a land use permit was approved for this Fire Station (241-67). The variance request would be to enclose an existing space that would not expand the overall building footprint or height. Therefore, the variance request is consistent with the intent and purpose of the respective land use district and prior approvals for the fire station.

### **CONDITIONS OF APPROVAL FOR COUNTY FILE #CDVR21-01040:**

#### **Project Approval**

- 1. This Variance approval** is granted to allow a 15-foot ¼-inch front yard setback (where 20-feet is the minimum) and a 3-foot, 5-inch side yard (where 5-feet is the minimum) to enclose an existing 345-square-foot, second story deck space on the existing Kensington Public Safety Building that meets the requirements of Section 26-2.2006 of the County Ordinance Code.

The Variance approvals described above are generally based on the following:

- Variance application and related materials submitted to the Community Development Division (CDD) on December 9, 2021;
- Revised Architectural Plans submitted to DCD on February 4, 2022.

#### **General Provisions**

- 2.** Any deviation from the approved plans shall require review and approval by the CDD and may require the filing of an application for a new Variance permit.

#### **Payment of Fees**

- 3.** This application is subject to an initial application deposit of \$3,412 which was paid with the application submittal, plus time and material costs if the application review expenses exceed 100% of the initial deposit. Any additional costs due must be paid within 60 days of the permit effective date or prior to use of the permit, whichever occurs first. The applicant may obtain current costs by contacting the project planner.

If the applicant owes additional fees, a bill will be sent to the applicant shortly after permit issuance.

### **Construction Period Restrictions and Requirements**

4. The applicant shall comply with the following restrictions and requirements:
  - A. Unless specifically approved otherwise via prior authorization from the Zoning Administrator, all construction activities shall be limited to the hours of 8:00 A.M. to 5:00 P.M., Monday through Friday, and are prohibited on State and Federal holidays on the calendar dates that these holidays are observed by the State or Federal government as listed below:

New Year's Day (State and Federal)  
Birthday of Martin Luther King, Jr. (State and Federal)  
Washington's Birthday (Federal)  
Lincoln's Birthday (State)  
President's Day (State)  
Cesar Chavez Day (State)  
Memorial Day (State and Federal)  
Juneteenth National Independence Holiday (Federal)  
Independence Day (State and Federal)  
Labor Day (State and Federal)  
Columbus Day (Federal)  
Veterans Day (State and Federal)  
Thanksgiving Day (State and Federal)  
Day after Thanksgiving (State)  
Christmas Day (State and Federal)

For specific details on the actual day the State and Federal holidays occur, please visit the following websites:

Federal Holidays: [Federal Holidays \(opm.gov\)](https://www.opm.gov)  
California Holidays: <http://www.ftb.ca.gov/aboutftb/holidays.shtml>

- B. Transportation of large trucks and heavy equipment is subject to the same restrictions that are imposed on construction activities, except that the hours are limited to 9:00 AM to 4:00 PM.
    - C. A good faith effort shall be made to avoid interference with existing neighborhood traffic flows.

- D. All internal combustion engines shall be fitted with mufflers that are in good condition and stationary noise-generating equipment such as air compressors shall be located as far away from existing residences as possible.
- E. Construction equipment and materials shall be stored onsite.
- F. The construction site shall be maintained in an orderly fashion. Litter and debris shall be contained in appropriate receptacles and shall be disposed of as necessary.
- G. Any debris found outside the site shall immediately be collected and deposited in appropriate receptacles.
- H. All stationary noise-generating equipment such as air compressors and concrete pumps shall be located as far away from adjacent residences as possible.

#### **ADVISORY NOTES**

**ADVISORY NOTES ARE NOT CONDITIONS OF APPROVAL; THEY ARE PROVIDED TO ALERT THE APPLICANT TO ADDITIONAL ORDINANCES, STATUTES, AND LEGAL REQUIREMENTS OF THE COUNTY AND OTHER PUBLIC AGENCIES THAT MAY BE APPLICABLE TO THIS PROJECT.**

- A. NOTICE OF OPPORTUNITY TO PROTEST FEES, ASSESSMENTS, DEDICATIONS, RESERVATIONS OR OTHER EXACTIONS PERTAINING TO THE APPROVAL OF THIS PERMIT.

Pursuant to California Government Code Section 66000, et seq., the applicant has the opportunity to protest fees, dedications, reservations or exactions required as part of this project approval. To be valid, a protest must be in writing pursuant to Government Code Section 66020 and must be delivered to the Community Development Division within a 90-day period that begins on the date that this project is approved. If the 90th day falls on a day that the Community Development Division is closed, then the protest must be submitted by the end of the next business day.

- B. Prior to applying for a building permit, the applicant is strongly encouraged to contact the following agencies to determine if additional requirements and/or additional permits are required as part of the project:

- Contra Costa County Building Inspection Division
- Contra Costa County Environmental Health Division
- East Bay Municipal District
- Kensington Fire Protection District
- Stege Sanitary District

February 10, 2022

**RE: Kensington Public Safety Building  
Kensington, California  
Structural Engineering Professional Services Proposal  
PV Canopy Structural Design Add Service Request**

Bill,

Additional structural scope has been requested for the project, as described below, for the above-mentioned project at 217 Arlington Avenue in Kensington, California. This additional services request is between ZFA Structural Engineers (Consultant) and KFPD (Client) and provides structural engineering services for the Construction Documents phase through completion of Construction Administration. Our proposed project scope is based on the conceptual PV information that was provided during our design team web-based meeting on January 20, 2022.

## PROJECT DESCRIPTION

The additional services consist of the structural design of a new standalone photovoltaic panel (PV) array canopy structure that is anticipated to be placed over the parking stalls adjacent to the existing retaining wall along the back property line. The proposed solar canopy structure is assumed to support 28 (380watt LG Neon2) panels, total array size is approximately 10.6kW. The canopy will be two panels deep, cover 6 vehicle parking stalls, and total approximately 710 square feet (12.5ft x 58ft). See figures below for a conceptual PV canopy plan and section.

Figure 1 - Conceptual PV Canopy Plan

1 SECTION AT STANDALONE PV ARRAY  
SSK 1/2" = 1'-0"

Figure 2 - Conceptual PV Canopy Section

### **FEE FOR ADDITIONAL SERVICES**

We propose to perform the above services on a time and materials basis with Not-to-Exceed limits summarized in the table below. Fees are based on our project understanding, and detailed scope of work provided previously in this document.

<b>Phase</b>	<b>Fee</b>
PV Construction Documents	\$7,500
Construction Administration	\$2,500
<b>Total</b>	<b>\$10,000</b>

\* Expenses other than labor charges that are directly attributed to our professional services are invoiced at our cost plus 20 percent. Reimbursable expenses typically include: 1) extra prints and reproductions, 2) special delivery (e.g. overnight) costs, 3) sub-consultants hired for the project by ZFA Structural Engineers with Client's authorization and 4) any and all work, fees, expenses and costs that are not specifically listed and identified in the Agreement, Project Approach, and Scope of Services.

### **EXCLUSIONS**

This agreement does not include the following:

1. Design of temporary support systems, shoring, bracing, or construction means and methods items.
2. Layout of PV carport column locations to meet accessibility and operational requirements. We assume that an architect will provide the layout.
3. Major changes in the scope or design of the project as initiated by the Owner or Architect.
4. Any additional work not included within the Scope of Services.

### **TERMS AND CONDITIONS**

The previously agreed to detailed Terms and Conditions from ZFA's ongoing work with the District are hereby incorporated by reference in their entirety as an integral part of this Agreement. Client's acceptance of this Agreement includes full acceptance of all Terms and Conditions without condition or reservation.

**PROJECT AUTHORIZATION**

We appreciate the opportunity to work with you on this project. We have attempted to anticipate the services required to successfully complete this project. If our fee is not in accordance with what you anticipated, please contact me. Should you find this proposal acceptable, please return a signed copy of this letter.

Thank you for providing us the opportunity to be considered to join your team.

**Offered by:**

## Cancellation of March 4 JPA Meeting -- Next Meeting April 1

---

Logan Woodruff <lwoodruff@placeworks.com>

Tue, Mar 1, 2022 at 6:20 PM

Good Evening:

We are writing to report that **we held our first working group meeting** to discuss the potential formation of an East Bay Hills Wildfire Prevention JPA on Thursday, February 24. This very productive meeting was attended by five elected officials and seven fire professionals, who are listed at the bottom of this email.

The working group agreed to meet again in March to continue its discussions. Since the outcomes of the working group's discussion will determine our proposed path forward, **we have decided to cancel the March 4th meeting of all jurisdictions** to give the working group a chance to meet again. **We will reconvene the larger meeting of all jurisdictions on Friday, April 1.**

At the February 24 meeting, several fire officials stated that they feel that current collaborative mechanisms suffice to address wildfire prevention issues facing the region, and that the addition of a new government agency would be redundant and/or unnecessary. Other fire officials and several elected officials suggested that additional and more formal collaboration may be a beneficial supplement to current efforts. They suggested that additional collaboration, possibly through a JPA, could address gaps in fuel reduction efforts, provide additional resources where they are needed, and bring all jurisdictions to more similar levels of fire prevention efforts. We hope that our discussions at the working group can yield an approach that will receive support from all quarters.

By the end of the February 24 meeting, working group members agreed to meet again to discuss four options to support regional coordination of wildfire prevention efforts:

1. Continue with the status quo, possibly with some additional interagency coordination
2. Add resources to local Fire Safe Councils, particularly to support jurisdictions that do not have grant-writing capacity
3. Add resources to the Hills Emergency Forum, possibly by including elected official(s) and/or through a more formal MOU
4. Form a Joint Powers Agency

If you have comments on these four options, please feel free to forward them to our team by replying to this email or by emailing either Jon or Lisa at the addresses below. We look forward to holding a second meeting of the working group and reporting on the outcome at our larger meeting on April 1.

Thank you,

**Jon Kaufman and Lisa Jacobs**

Co-Chairs, Community Organizing Committee

East Bay Hills Wildfire Prevention JPA

# 2021 Annual Report

January 2022

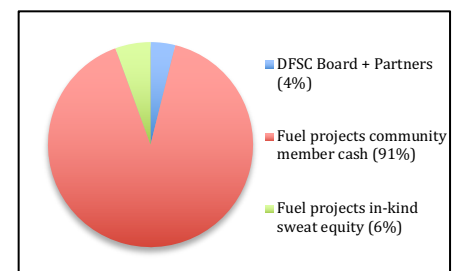

## Accomplishments

- Grant funds expended as of 12/31/2021  
Two active CAL FIRE California Greenhouse Gas Fund and California Climate Investment grants expended a total of \$185,393. One Pacific Gas and Electric Company grant \$50,000. Grant funds were used for outreach, education, hazardous fuel reduction, Contra Costa County Community Wildfire Protection Plan update and operations.
- Community match for hazardous fuel reduction: \$215,514 cash match and \$15,577 of in-kind services with 495 volunteer hours for 10 hazardous fuel reduction projects treating over 25 acres.
- Funding for Defensible Space Projects in Alameda & Contra Costa Counties  
"Partners in Wildfire Prevention" continued to provide up to \$5,000 seed funding for neighbors, and agencies linked by concern of wildfire hazards around their homes and adjacent open space. California Climate Initiative and private donations funded \$144,225 for completion of a total of 75 projects in the communities of Castro Valley, Oakland, Pleasanton, San Leandro, Briones, Crockett, East Richmond Heights, El Cerrito, El Sobrante, Lafayette, Moraga, Morgan Territory, Orinda, and Rossmoor. Sweat equity and homeowner funding provided \$238,209 to treat 252 acres since the current grant began in 2018.
- Pacific Gas and Electric Company (PG&E) grant funding for hazardous fuel reduction projects in Alameda & Contra Costa Counties. \$50,000 total.  
As a match for a CAL FIRE grant, PG&E grant funding provided up to \$5,000 funding each for 10 community-led projects. Projects were located in the communities of El Cerrito, Lafayette, Orinda and Oakland. Sweat equity and homeowner funding provided a match of \$191,934. Work included tree thinning and limbing up, juniper removal, and defensible space clearing on 25 acres.
- Good to go! How to get ready, stay informed, evacuative and return from wildfire.  
Pilot program to prepare residents for their roles in the evacuation process. Working with Sunol, and Sleepy Hollow (Orinda) residents DFSC developed: program workbooks, YouTube videos, checklists, surveys, post cards, banners, Mailchimp campaigns and listserv information. In Spring 2021, DFSC and project partners expended over \$185,500 to remove hazardous trees that could block key evacuation routes in Oakland and Sleepy Hollow.
- Kensington Fuel Reduction Projects  
The Kensington fuel reduction projects utilize community fundraising to fund ongoing work on both private and public lands. 2021 was the eleventh year of neighbors working under DFSC sponsored Right of Entry (ROE) agreement with East Bay Regional Park District (EBRPD) to create defensible space in Wildcat Canyon Regional Park adjacent to homes. During 2021 nine projects spent \$37,991 on both private and public lands along the interface with Wildcat Canyon Regional Park.
- Community Wildfire Protection Plan (CWPP) Updates and Regional Priority Plan  
The Alameda County CWPP Update was deferred until 2022 due to Covid-19 restrictions on meeting in person. Contra Costa CWPP Update adopted May, 26, 2020. On-going participation in Regional Priority Plan for healthy forests and fire resiliency.
- Services to Agency Partners  
DFSC provided \$8,156 of services to agency partners, including working with University of California Berkeley on fuel projects with CAL FIRE Conservation Crews, environmental review and outreach.
- Membership, Corporate Grants, Kensington community financial support \$76,528.  
Corporate Grant: Pacific Gas and Electric Company. Friends of DFSC: Kensington, El Cerrito, Oakland and Berkeley residents' and Thrivent In-faith community donations.
- Outreach and Education
- Website update + E-mail updates

# CALIFORNIA UNIFORM PUBLIC CONSTRUCTION COST ACCOUNTING ACT FREQUENTLY ASKED QUESTIONS (FAQs)

These FAQs have been compiled to assist agencies that are participating in the California Uniform Public Construction Cost Accounting Act (the Act), as contained in Public Contract Code (PCC) Section 22000, et seq. All references are to PCC, unless otherwise stated.

## 1. What is the Uniform Public Construction Cost Accounting Act?

The Act is legislation that was enacted in 1983 to help promote “uniformity of the cost accounting standards and bidding procedures on construction work performed or contracted by public entities in the state” (Section 22001). The Act is a voluntary program available to all public entities in the State, but it applies only to those public agencies that have “opted in” to the provisions set forth by the Act using the processes outlined in the Act. The entirety of the Act is found at Sections 22000-22045.

## 2. What are some of the key provisions of the Act?

The Act allows for public project work in the amount of \$60,000 or less to be performed by a public agency’s force account using the public agency’s own resources, or by negotiated contract, or by purchase order (Section 22032(a)). Public projects in the amount of \$200,000 or less may use the informal or formal bidding procedures set forth in Section 22032(b) or (c) of the Act. Public projects at a cost of more than \$200,000 must use formal bidding procedures to let the contract pursuant PCC Section 22032(c).

## 3. What are the benefits of the program?

- Increased force account limit for public agencies;
- Simplified bidding for projects that are \$200,000 or less;
- Reduced number of formal bids based on project size; and
- Expedited contracting for projects under \$200,000.

Many participating agencies appreciate the program because it has given them more leeway in the execution of public works projects under a certain dollar amount; sped up the award process; expedited project delivery; reduced the time, effort, and expense associated with bidding projects under \$200,000; and simplified administration for those projects. Few agencies have experienced challenges with the accounting requirements and overhead provisions. Moreover, adjustments, when required, have been relatively simple; most required procedures were already in place, so there were few, if any, major changes to existing operations. The current Standard Accounting Codes Structure satisfies reporting requirements when used properly.

4. Is the Uniform Public Construction Cost Accounting Act mandatory for public agencies?

No. The Act is a voluntary program requiring a public agency to “opt in” using the process outlined in the Act.

5. How does a public agency become subject to the Act?

The governing body must elect by resolution to become subject to the Act and must file a copy of the approved resolution with the State Controller’s Office (Section 22030). Sample documents are available at: [http://www.sco.ca.gov/ard\\_cuccac.html](http://www.sco.ca.gov/ard_cuccac.html). Once an agency has opted into the Act, it will remain a part of the program.

6. May a public agency withdraw from the Act?

Yes. An agency may withdraw from the Act by filing with the State Controller’s Office an approved resolution of the agency’s election to withdraw that was made during a public meeting of the agency’s governing body.

7. Must a participating agency “opt in” to the Act annually?

No. Once a participating agency “opts in” to the Act, the agency remains subject to the Act until it “opts out” of the Act.

8. What is the California Uniform Construction Cost Accounting Commission?

The Commission was created to administer the Act, per Section 22010. It consists of 14 members: 13 members appointed by the State Controller and the License “A” member of the Contractors’ State License Board. Seven members represent the public sector (counties, cities, school districts, and special districts). Six members represent the private sector (public works contractors and unions). The Commission members receive no salary, but are eligible for reimbursement of their direct expenses related to the Commission.

9. What are the Uniform Public Construction Cost Accounting Procedures?

These procedures are to be used for tracking costs for work performed by an Agency’s own forces on a “project” as defined by the Act (Section 22002(c)). The procedures do not apply to operations or maintenance work, or any work that meets the criteria listed in Section 22002(d).

These procedures are intended to capture and record all direct and indirect labor, materials, equipment, subcontractors, and supervision costs, as well as the appropriate overhead costs for the public agency associated with each “project” it performs with its own forces. The procedures follow industry-standard accounting methods, and in many cases are not much different from those already in place at most agencies. Sample forms are available in the CUCCAC Cost Accounting Policies and Procedures Manual at [http://www.sco.ca.gov/Files-ARD-Local/CUCCAC\\_Manual.pdf](http://www.sco.ca.gov/Files-ARD-Local/CUCCAC_Manual.pdf)

School districts may use the Standard Accounting Code Structure to comply with tracking requirements.

10. Are the cost accounting procedures applicable for agencies whose work forces perform only maintenance tasks as defined in the Act and that contract all of their public projects to third parties?

No. The cost accounting procedures are applicable only for agencies that perform public project work such as construction and alteration by force account or otherwise. As **maintenance does not constitute a “project”** under the Act, the cost accounting procedures do not apply.

11. When are participating agencies required to advertise if they choose to maintain a list of qualified contractors?

At least once per calendar year, each Public Agency that has elected to become subject to the Act and intends to use the notice provisions outlined in Section 22034(a) must establish a new list or update its existing list of qualified contractors by mailing, faxing, or emailing written notice to all construction trade journals designated for that Agency under Section 22036. The notice must invite all licensed contractors to submit the name of their firms to the Agency for inclusion on the **Agency’s** list of qualified bidders for the following twelve (12) months. Effective January 1, 2016, a participating agency can choose a specific date of their choice in which to renew its list of qualified contractors.

12. May an agency that chooses to maintain a list add a contractor to the list at any time during the year?

Yes.

13. What is meant by the term “qualified contractors” as used in section 22034(a)(1) of the Act?

*Qualified contractors* are contractors licensed by the State to perform the subject work. The Commission has determined that nothing in the Act prohibits a participating agency from using additional objective pre-qualification standards in the formation and maintenance of their Qualified Contractors Lists if they so desire.

14. Can a public agency disqualify or exclude certain contractors from the Qualified Contractors List required in Section 22034(a)(1)?

Agencies may disqualify contractors from Qualified Contractors Lists when the contractors fail to furnish information to meet the minimum criteria as established by the Commission.

15. For agencies that do not maintain an informal bidders list, are they allowed to choose who would get notifications of projects?

No. Section 22034(a)(2) provides for notifications to construction trade journals and exchanges in lieu of sending notifications to contractors on an informal bidders list. An agency may send notices to selected contractors provided it has also met the advertisement requirements of Section 22034(a).

16. What is the difference between “qualifying contractors” under the Act and “prequalification of contractors” by school districts under Section 20101?

Qualifying contractors is a process that allows contractors to register with a public agency for notification of public works opportunities. The prequalification process under Section 20101 is a more complex process that requires a standardized questionnaire and evaluation of contractors using standard scoring criteria. The prequalification process is applicable under the Local Agency Public Construction Act, and does not apply to the Uniform Public Construction Cost Accounting Act.

17. Must a public agency a) notify contractors about public projects if the contractors are believed to not have the skills, credentials, or experience to perform the work required for the public project; and b) consider bids submitted by contractors that the public agency believes do not have the skills, credentials, or experience to perform the work?

a) Yes. If a contractor is on the Qualified Contractors List, the contractor must be notified by the agency of public projects for which he or she is licensed to perform (Section 22034(a)(1)).

b) All bids received must be considered, unless an agency makes appropriate legal findings that a contractor is not legally responsible or his or her bid is not responsive.

18. Does the Act allow flexibility in cases of emergency and when repair or replacements are necessary to permit the continued conduct of a public agency’s operations or services?

Yes. For the purposes of the Public Contract Code, an “emergency” is defined at Section 1102 as “a sudden, unexpected occurrence that poses a clear and imminent danger, requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public services.”

The Act sets forth in Section 22035(a) how a governing body should proceed in case of emergency repairs or replacements. This section states:

In cases of emergency when repair or replacements are necessary, the governing body may proceed at once to replace or repair any public facility without adopting plans, specifications, strain sheets, or working details, or giving notice for bids to let contracts. The work may be done by day labor under the direction of the governing body, by contractor, or by a combination of the two.

Section 22050 et seq., provides the emergency contract procedures to be followed in these cases.

19. Do the alternative bidding procedures apply only to public projects as defined in Section 22002(c)?

The alternative bidding procedures apply only to work that constitutes a “public project” as defined in Section 22002(c) and has a construction cost within the

limits described in Section 22032. The alternative bidding procedures are not required for the purchase of goods or materials that are not part of a “public project.”

However, as outlined in Section 22003, a participating agency may also use the alternative bidding procedures when contracting for maintenance or other work that does not fall within the definition of a “public project” if it so chooses.

20. What will membership in the Act cost my agency?

Nothing. There are no membership fees or dues. However, the Commission does accept grants to assist it in carrying out its duties (Section 22015(c)).

21. What are the most common concerns addressed by the Act?

These are:

- Cost accounting policies and procedures;
- Informal bidding procedures; and
- Accounting procedures review.

Cost accounting requirements for the Act follow those common to the construction industry. The informal bidding on public projects up to \$200,000 is seen by agencies as an effective tool to expedite completion of small projects. While an accounting procedures review could potentially hold up a project for a minimum of 45 days pursuant to Section 22043(c)(1), these types of reviews have been rare in the Commission’s history.

22. Must an agency calculate an overhead rate to apply the accounting procedures?

No. Cities with populations of less than 75,000 must assume an overhead rate equal to 20% of the total costs of the public project, including the costs of material, equipment, and labor (Section 22017(b)(1)). Cities with a population of more than 75,000 may either calculate an actual overhead rate or assume an overhead rate of 30% of the total costs of a public project including the costs of materials, equipment, and labor (Section 22017(b)(2)).

23. When a public entity opts into the Act, does the Act supersede other contracting legal requirements such as statutory requirements for performance bonds, prevailing wages, and certificates of insurance, etc.?

No. The Act supersedes only the bidding procedures used once a public agency has opted into the Act and has notified the Controller. All other contracting requirements of the PCC remain applicable.

24. Can a public agency claim to be to be exempt from following all of the requirements in Public Contract Code by claiming it only has to follow the language and procedures within the Act?

No. The Act is part of the Public Contract Code; therefore, if the Act is silent on a particular matter, then the Public Contract Code applies on that matter.

25. If public agencies are not following the advertising requirements in the Act, will the Commission address those agencies? Can a complaint be brought to the Commission?

Yes. Recent legislative changes have expanded the Commission's authority to enforce provisions of the Act. The Commission may review complaints filed by interested parties when evidence is provided that:

- The participating agency performed work after rejecting all bids, claiming it could do the work less expensively (Section 22042(a)).
- The work performed exceeded the force account limits (Section 22042(b)).
- The work was improperly classified as maintenance (Section 22042(c)).
- A public agency did not comply with the informal bidding procedures set forth at Section 22034 (Section 22042.5).

26. Section 20112 specifically requires school districts to advertise twice for a two-week period, while Section 22037 requires advertising once, 14 days in advance of the date of opening of bids. How do participating school districts reconcile this conflict?

When the Act is in conflict with any other section in the Public Contract Code, the Act shall supersede. The Act requires advertising once, 14 days in advance of the date of opening of bids. Districts participating in the Act may choose to maximize their outreach by advertising twice.

27. May a public agency contract separately for like work at the same site at the same time using the under \$60,000 Force Account method?

No. Section 22033 states:

It shall be unlawful to split or separate into smaller work orders or projects any project for the purpose of evading the provisions of this article requiring work to be done by contract after competitive bidding.

Separating "like work" would be permitted only if the total of all the "like work" is less than \$60,000. If the work is more than \$60,000, it must be advertised and bid according to the provisions of the Act (i.e. bid informally if the total amount is less than \$200,000; bid formally if the total amount exceeds \$200,000).

28. May a public agency bid out two separate projects that occur at the same time and site, but are different types of work?

Yes. There is no violation if the work is competitively bid. If an agency wishes to use the negotiated or informal bidding processes, it must apply the

appropriate limits to each of the projects. Each project must be separate in scope. Projects may not be separated by trade to avoid bidding. If the total of all jobs is greater than \$60,000 then the informal or formal bid limits apply.

29. Can an agency separately bid out for the materials and supplies on a project to avoid contractor markup and then bid out for the installation labor or perform installation with its own forces?

An agency may separately procure the materials and supplies for a project; however, all costs (materials, supplies, labor) of a project must be included in the project cost estimate to determine whether the project falls within the force account, informal bid, or formal bid thresholds.

In addition, if installation is performed by force account, an overhead rate must be applied to all direct costs of the project and included in the cost estimate. For example, if materials/supplies cost \$50,000 to procure separately and the estimated labor cost to install is \$25,000, the project could not be performed with force account, but would fall within the informal bid threshold because the total cost estimate is \$75,000.

30. Must a value be assigned to the volunteer labor when the California Conservation Corps or another volunteer organization provides labor on a public project?

No. Volunteer labor from volunteer organizations does not need to be included as a cost of a public project for bid limit purposes as long as no costs are associated with the volunteer labor.

31. By opting into the Act, does a public agency automatically bring all of its component divisions or departments into the Act?

Yes. When a public agency elects to become subject to the uniform construction cost accounting procedures, the entire legal entity is considered subject to the Act and no divisions or departments are exempt.

32. When a public agency opts into the Act, does it automatically bring all districts under control of its governing Board into the Act?

No. Special Districts, which are governed by a board of supervisors or city council, are subject only if a separate election is made for each special district.

33. PCC 22034 requires that participating agencies adopt an Informal Bidding Ordinance. What do schools and special districts that cannot adopt Ordinances do to comply?

Agencies that do not have the ability to adopt Ordinances should discuss Section 22034 compliance with their legal counsel.
