RE: **Incident Activity Reports for the Month of April 2021**

There were 24 incidents that occurred during the month of April in the community of Kensington. This is a decrease of 10 calls over the previous month. Please see the attached “Incident Log” for the dates and times, locations, and incident type for these calls that the Fire Department responded to this past month. During this same time, Engine 165 responded to a total of 51 calls which is a decrease of 2 calls over the previous month.

On April 20th at approximately 12:10 am, Engine 165 was dispatched to the 500 block of Coventry for a reported vehicle fire. Upon arrival, they found a Toyota mini-van fully engulfed and spreading to the landscape. Kensington PD and the neighbors were attempting to extinguish the fire with a garden hose. The crew were able to quickly extinguish the fire and the burning landscape with no further property damage other than the vehicle. The cause of the fire was not able to be determined other than it started in the engine compartment.

The chart below is broken down into the seven incident response types tracked by the State and National fire incident reporting systems. The following is the number of responses for each type and the percentage of the total calls for each type for all the responses in the community of Kensington.
