TO: Kensington Fire Protection District Board Members

FROM: Michael Pigoni: Fire Chief

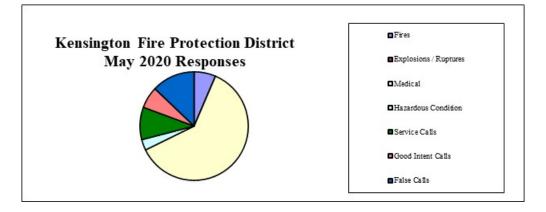

RE: Incident Activity Reports for the Month of May 2020

There were 31 incidents that occurred during the month of April in the community of Kensington. This is an increase of 9 calls over the previous month. Please see the attached "Incident Log" for the dates and times, locations, and incident type for these calls that the Fire Department responded to this past month. During this same time, Engine 65 responded to a total of 44 calls in all districts, an increase of 5 calls from last month.

On May 12th, the Fire Department responded to a reported structure fire in the 200 block of Trinity Avenue. Upon arrival, crews were informed that the fire had occurred in the garage but was now out. Upon investigating it was discovered that one of the residents had emptied out an ash tray into a garbage can in the garage that also contained some dry leaves. The fire was contained to the trash can and a throw rug that it was sitting on. On May 25th, there was another reported structure fire in the 200 block of Cambridge Avenue. Upon arrival, the fire was located outside the structure in the back yard where the resident had lit their BBQ but had not taken of the grill cover all the way. When the cover caught fire, it also melted the propane hose to the burners. The fire had been extinguished by the home owner, but the gas was still leaking. Crews isolated the propane tank and insured there was no extension of the fire to the structure.

The chart below is broken down into NFIRS incident types. The following is a list of the response types, the number of responses for each type and the percentage of the total calls for each type for all the responses in the community of Kensington.

GAVIN NEWSOM - GOVERNOR

STATE CAPITOL ■ ROOM 1145 ■ SACRAMENTO CA ■ 95814-4998 ■ WWW.DOF.CA.GOV

May 2020

Dear Fiscal Officer:

Subject: Price Factor and Population Information

Appropriations Limit

California Revenue and Taxation Code section 2227 requires the Department of Finance to transmit an estimate of the percentage change in population to local governments. Each local jurisdiction must use their percentage change in population factor for January 1, 2020, in conjunction with a change in the cost of living, or price factor, to calculate their appropriations limit for fiscal year 2020-21. Attachment A provides the change in California's per capita personal income and an example for utilizing the price factor and population percentage change factor to calculate the 2020-21 appropriations limit. Attachment B provides the city and unincorporated county population percentage change. Attachment C provides the population percentage change for counties and their summed incorporated areas. The population percentage change data excludes federal and state institutionalized populations and military populations.

Population Percent Change for Special Districts

Some special districts must establish an annual appropriations limit. California Revenue and Taxation Code section 2228 provides additional information regarding the appropriations limit. Article XIII B, section 9(C) of the California Constitution exempts certain special districts from the appropriations limit calculation mandate. The code section and the California Constitution can be accessed at the following website: http://leginfo.legislature.ca.gov/faces/codes.xhtml.

Special districts required by law to calculate their appropriations limit must present the calculation as part of their annual audit. Any questions special districts have on this requirement should be directed to their county, district legal counsel, or the law itself. No state agency reviews the local appropriations limits.

Population Certification

The population certification program applies only to cities and counties. California Revenue and Taxation Code section 11005.6 mandates Finance to automatically certify any population estimate that exceeds the current certified population with the State Controller's Office. **Finance will certify the higher estimate to the State Controller by June 1, 2020**.

Please Note: The prior year's city population estimates may be revised. The per capita personal income change is based on historical data. Given the stay-at-home orders due to COVID-19, growth in the coming years may be substantially lower than recent trends.

If you have any questions regarding this data, please contact the Demographic Research Unit at (916) 323-4086.

A. **Price Factor**: Article XIII B specifies that local jurisdictions select their cost of living factor to compute their appropriation limit by a vote of their governing body. The cost of living factor provided here is per capita personal income. If the percentage change in per capita personal income is selected, the percentage change to be used in setting the fiscal year 2020-21 appropriation limit is:

Per Capita Personal Income

| Fiscal Year | Percentage change | | | | |
|-------------|-------------------|--|--|--|--|
| (FY) | over prior year | | | | |
| | | | | | |
| 2020-21 | 3.73 | | | | |

B. Following is an example using sample population change and the change in California per capita personal income as growth factors in computing a 2020-21 appropriation limit.

2020-21:

Per Capita Cost of Living Change = 3.73 percent Population Change = 0.22 percent

Per Capita Cost of Living converted to a ratio: 3.73 + 100 = 1.0373

100

Population converted to a ratio: $\underline{0.22 + 100} = 1.0022$

100

Calculation of factor for FY 2020-21: $1.0373 \times 1.0022 = 1.0396$

RE: Fiscal Year 2020-21 Fee Schedule

To Members of the Finance Committee,

Attached please find the Kensington Preliminary Budget for Fiscal Year 2020/21. Included in this file is the worksheets for "Prior Year Reconciliation", "Prior Year Reconciliation Summary" and the Budget FY20-21 which is the proposed fee schedule for this next year that will begin July 1, 2020. As a point of clarification, the term "Prior Year" refers to Fiscal Year 2018-19 (**FY-19**). In May of 2018, the proposed fee schedule for FY2018-19 was \$3,016,868 which included \$215,158 budget to actual reconciliation for FY2016-17.

In review of FY-19, the Overtime Pay account was budgeted at \$700,000.00 which was very conservative considering that the Fire Department has been running with 3 vacancies for many years and backfilling with overtime. The overtime average has been steady at just over \$1 million annually for the past 5 years. This has been justified due to the high pension costs and even higher unfunded accrued liability (UAL) costs to recruit and hire the additional firefighters.

This same year, three personnel retired including the Fire Chief, a Battalion Chief, and an Engineer. None of these retirements were budgeted and the vacancies were backfilled with additional overtime while the Fire Department recruited and hired replacements. In addition, the Fire Department had three personnel off on Family Medical Leave Act (FMLA) for an extended amount of time as well as an extended Worker's Comp injury. All these vacancies added up to an additional overtime costs of approximately \$505,000. Additionally, there were the "One Time Payouts" for vacation and sick leave buyout that amounted to approximately \$122,000 that was not budgeted.

Related costs to these retirements are also seen in "Miscellaneous Professional Services" to hold promotional tests for Engineer, Captain and Battalion Chief as well as background checks, psychological assessments, and medical evaluations for the new recruits. Also, there were the costs to purchase and provided the personal protective equipment for the new hires that is seen in the Clothing and Uniform account. This includes their structural turnout gear, wildland gear, boots, helmets, and gloves.

During this same time, we experienced some major repairs on all the apparatus, potentially due a bad fuel load which required a new fuel injection pump and injectors as well as a head gasket on Engine 165, a new turbocharger on Engine 172 and a fuel injection pump and injectors on Engine 171. Also, our dispatch fee with Contra Costa County Regional Fire Communication Center (Con Fire) was increased over \$25,000 over what was budgeted to upgrade their CAD and Enhanced 911 systems.

These listed items along with some smaller budget to actual true ups adds up to a total reconciliation for FY-19 of \$289,193.75 which would have made the total fee for FY-19 \$3,306,061.91.

For the current fiscal year, the adopted contract fee was \$3,088,752.09. At the March 11, 2020 Board Meeting, Glenn Lazof of RGS submitted mid-year budget review with an estimated budget to actual reconciliation of \$242,036.00 or a revised total contract fee of \$3,330,749.09.

Reviewing the Fee Schedule Budget for Fiscal Year 2020-21, the proposed contract fee is \$3,518,174.42 which is approximately a 6% increase over the last three years after reconciliation. There are some changes made this year to the Department's operations to reduce overall costs. One of these is historical use of overtime to backfill vacancies. The Kensington Finance Committee as well as the Board has expressed their concerns on the amount of overtime every year and if it is really the most efficient use of labor. I am proposing to the City Council and it is reflected in this proposed fee schedule to fill the three vacancies and reduce the overtime budget. The PERS rates for new hires under the Pension Reform Act are considerably less than the Classic PERS costs.

The Fire Department is also anticipating another retirement by the end of the year and thus I have budgeted for the costs associated for that as well as the onetime costs to recruit, test and hire the new firefighters including their personal protective equipment. I have also budgeted promotional tests to establish new promotional lists that will be valid for 2 year. These measures along with the concessions made by the labor group on their salaries, and updating the personnel spread sheet calculations, I am confident that this budget will be very close to actual and that in future fee reviews, the District will not face large reconciliation costs.

Please contact me with any questions you may have on these budget calculations.

Respectfully,

Michael Pigoni Fire Chief El Cerrito-Kensington Fire Department (510) 812-4503

RE: ADOPT PRELIMINARY FISCAL YEAR 2020-2021 BUDGET

SUBMITTED BY: Mary A. Morris-Mayorga, Interim General Manager

Recommended Action

Adopt the preliminary combined revenue, operating expense, and capital improvement budget for fiscal year 2020-2021 (Resolution 20-07).

Background

As the District began development of the annual budget, staff created a new process in support of the Guiding Principles provided to the Board of Directors at the May 13, 2020 meeting which are included in the Budget Development Manual. This manual contains reference information useful to the Committee, Board and public for purposes of understanding the budget. Due to the condensed timeframe for budget development this year as a result of staff transition and the pandemic, a high level budget was included in the manual. Further detail on the budget has now been incorporated.

On May 22, 2020 the Finance Committee discussed this item and approved placing this on the agenda for the next regular Board of Directors' Meeting.

Fiscal Impact

The Fiscal Year 2020-2021 Budget is balanced and provide for all District services, programs and activities.

RESOLUTION 20-07

RESOLUTION OF THE BOARD OF DIRECTORS OF THE KENSINGTON FIRE PROTECTION DISTRICT ADOPTING THE PRELIMINARY COMBINED REVENUE, OPERATING EXPENSE, AND CAPITAL IMPROVEMENT BUDGET FOR FISCAL YEAR 2020-2021

WHEREAS, the Board of Directors of the Kensington Fire Protection District has approved or otherwise established the preliminary annual fee for services from the City of El Cerrito for Fiscal Year 2020-2021; and

WHEREAS, a final Revenue, Operating Expense and Capital Improvement Budget shall be approved by the Board of Directors of the Kensington Fire Protection District by the statutory required date of October 1, 2020;

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors hereby adopts the Preliminary Combined Revenue, Operating Expense and Capital Improvement Budget with its associated schedules for Fiscal Year 2020-2021 which is attached to and made part of this resolution.

The foregoing resolution was duly adopted at a regular meeting of the Kensington Fire Protection District on the 10th day of June 2020 by the following vote of the Board.

This serves not only to demonstrate the planned revenues and expenditures of KFPD, but also to communicate to the public important information on strategic planning and priorities.

In the short-term, priorities include:

- Updates to various policies;
- Potential renovation of the Public Safety Building;
- Refining and improving of internal processes;
- Identifying and implementing cost-savings opportunities; and

District Profile

The unincorporated town of Kensington began a volunteer fire department in 1928. Twenty-four years later, the Kensington Fire Protection District (formed in 1937) hired a staff of professional firefighters under the supervision of a fire chief. The District is organized under the State's Health & Safety Code Section 13800, commonly known as the Bergeson Fire District Law. In 1995, the District entered into a contract with the City of El Cerrito whereby El Cerrito would provide all fire prevention, fire suppression and emergency services within Kensington for an annual fee. As a result, the District's only current employee is its Interim General Manager (GM), Mary A. Morris-Mayorga. Salary information for the District's GM can be found at www.publicpay.ca.gov.

The early fire department was housed in a small, quaint English country-style building next to the Chevron Oil gas station on the Arlington. The current public safety building, owned by the District, was constructed in 1970 and substantially renovated in 1999 and 2004. The District owns two fire engines, one specifically engineered for the steep, narrow streets of Kensington and the other a "Type III" or wildland engine for use during high fire season.

In recent years the District embarked on a series of water system improvements by contract with the East Bay Municipal Utility District to enhance the provision of water along the wildland interface and to optimize the placement of hydrants throughout the community. The District initiated paramedic service in 2001. It offers the first engine-based Advanced Life Support service in West Contra Costa County, bringing medications and equipment to a patient's side in under 5 minutes on average.

The District is able to provide a timely and appropriate level of response by active participation with other West Contra Costa County fire agencies in automatic response agreements that use the combined resources of all agencies to serve the area irrespective of jurisdictional lines.

The District operates a Community Emergency Response Team Training (CERT) program under the direction of Battalion Chief David Gibson. For more information on CERT, see our "CERT Training" tab or www.el-cerrito.org/index.aspx?nid=133. Funding for District expenses is provided by property tax revenues as well as a special tax approved by the voters in 1980.

Mission

Our mission is to provide the highest level of service to Kensington in order to protect the lives, property, and environment of the community from the disastrous effects of fires, medical emergencies, natural disasters, and other hazardous conditions.

RGS Activity Report for April

Board Meetings: Prepare for practice for April regular meeting via Zoom. Begin preparation of Agenda and Materials Regular Meeting of May including participation and minutes. Special meeting of May 1 including discussions regarding agenda, including a fair amount of time with the President working out the complexity of holding a Closed Session on Zoom.

Transition: Anticipating a Transition to an Interim General Manager, RGS began limiting our activities the first full week of May. This course will avoid duplication of effort, prevent us from being out of sync with the approach of leadership, and of course reduce charges for our services during the month.

As of this writing RGS is restricting activity to:

Processing bills for transmittal payment.
Scheduling Board or Committee Meetings, as requested.
Transferring files, completed desk manuals, and items on the District Computer or other designated locations

Salary Computation for Chief Pigoni for upcoming reconciliation

Review e-mails and voice mail to district and forward or respond as appropriate.

Preparing materials and Agendas for board and committee meetings as requested, including Financial Report Support for E-mail host migration

This list will continue to be expanded or contracted at the request of the Interim General Manager.

Administration:

On site time, two days per week was suspended through the month. (As of this writing Contra Costa County Shelter in Place is in effect through May).

Fireplug: Final text edit has been submitted by President; distribution should be imminent.

Finance: Ongoing accounts payable AP including report and check processing, Transmittal, and Supplemental Transmittal. Challenges to these processes, related to the shelter in place orders, that had to be overcome. President Stein made the excellent suggestion that we utilize the transmittal process as often as we can during the shelter in place order. We have implemented this and a supplemental transmittal was prepared for the Special Meeting held May 1.

After you have interim staff in place, and the shelter in place is lifted, it is recommended that the Board lift the dollar limit on the amount permitted to be held in the Mechanics Bank account. This would enable your staff to manage cash, and give the district full control of accounts payable. It would also be far less time consuming than the current method. The only item that would need to be on the County Transmittal would be the monthly replenishment of the Mechanics Bank account, although the District might opt to keep the large Monthly Fire Contract payment with the county. The vast majority of public agencies manage all aspects of their Accounts Payable and the Interim General Manager can establish procedures which provide for similar, or stronger controls

¹ Research needed, to determine if there is a legal reason the District has adopted the current system for payable transactions using the County.

than currently exist in place for the account payments and transparent reporting on expenditures. RGS will assist if requested.

Significant time was spent communicating with PERS about payments. Much of the confusion is due to issues with lack of online access to invoices, delayed payments, miscommunications related to payments coming direct from the county among other issues. The Board will soon be able to appoint an administrator to access invoices, post payments, and receive and transmit information online. PERS agreed to help set this up and training for the PERS administrator should occur when the interim GM is appointed. There is strong reason to expect improvements shortly.

RGS and President Stein agreed to engagement of Maze and Associates CPA Jessie Kim. Jessie has had success resolving reconciliations between the KPPCSD's financial system and the County Ledgers. Rather than ask Shahrzad to re-invent the wheel, it was more obviously cost efficient to subcontract to cover the same ground for us, and point the way forward. The objective is to leave the Interim GM with a CPA reviewed starting point for the District Financial reporting, and reconciliation between the County and District records. This phase of the engagement was intended to end May 13, 2020, and permit the Interim GM, who has particular finance expertise, to decide if this service is needed. The District can still contract for this service directly with Maze if the Interim GM is interested.

Jessie's rate with Maze is \$140 an hour. It was agreed that RGS will pass the cost through to the district on the expense invoice. However, only an introductory discussion has occurred so the charge should not be significant.

California Employers' Retiree Benefit Trust (CERBT) Fund: Met with Trustee to discuss particulars of the Trust and Transaction procedures. Filed FY 2019 actuarial report. Wrote memo (attached) for Interim GM and Finance Committee to pass on the information on workings and requirements of CBERT. There are also options in that report to reimbursement that the Interim GM and Board may wish to consider.

RGS completed research into retiree dental payment reporting and source of revenue offsets. We are available to consult with the Interim GM regarding next steps and assist as directed.

RGS Team Change: Shahrzad Pantera will roll of the team May 6. We are joined by Linda Wong. Linda is a CPA with 11 years of Governmental Accounting experience, including the cities of Walnut Creek and Concord. We were fortunate to have overlap to provide for a smooth transition, as Linda shadowed Shahrzad's work.

There has been a recurring issue with a sink in the Fire Quarters. John Mercurio spoke with fire staff to understand what was going on (a strange gurgling sound and a very slow drain) He called Olivero Plumbing and asked them to make a visit and investigate. No other contact has been received from fire staff.

An ongoing electrical issue was referred to Mighetto Electric. John Mercurio called the owner and described what was occurring, as relayed to him by fire staff. A loud humming was emanating from an electrical box which has caused problems in the past, which Mighetto Electric is familiar with. The possible solution to this is a new part.

RE: PROPOSED AMENDMENTS TO POLICY 130 PAY PERIODS

REGARDING TIME APPROVAL FIRST READING

SUBMITTED BY: Mary A. Morris-Mayorga, Interim General Manager

Recommended Action

Consider approval of proposed amendments to Policy 130 - Pay Periods and hold first reading.

On May 22, 2020 the Finance Committee discussed this item and approved placing this on the agenda for the next regular Board of Directors' Meeting accordance with Policy 1010 - Adoption/Amendment of Policies.

Fiscal Impact

POLICY TITLE: Training Requirements

POLICY NUMBER: 185

185.10 All District employees and elected or appointed officials are required to participate in sexual harassment and abusive conduct prevention training. The training will be aimed at increasing their understanding of, and preventing, workplace sexual harassment, as well as their role in creating an underlying culture of mutual respect in the workplace.

185.20 The training will also cover abusive conduct, or workplace bullying, and other types of prohibited harassment, such as harassment based on gender identity, gender expression, and sexual orientation. Specific components of the training will include how to promptly and effectively respond to sexual harassment when it occurs, the effects of abusive conduct in the workplace, and ways to appropriately intervene if one witnesses behavior that is not in keeping with this policy. Employees will be trained on how to identify, investigate, report, and respond to unlawful harassment, discrimination, and retaliation in the workplace.

185.30 At a minimum, all supervisory employees are required to take two hours of training under this section every two years.

185.40 Non-supervisory employees are required to take one hour of training every two years. The District will make this training available to employees during regular working hours at no cost to the employee. Records of these training activities will be maintained in District files.

Item for discussion and possible action by the KFPD Board (ACTION):

The Emergency Preparedness Committee (EPC), following our 27 May 2020 meeting, recommends to the KFPD Board the following actions:

- 1. Accept the Kensington Evacuation Research Project Final Report dated January 8, 2020 prepared by Stephen Wong, Ian Martin, and Jeremy Halpern and thank them for the comprehensive work as well as their presentations to the public. (APPROVAL)
- Accept the general findings and recommendations in the report and delegate the
 further exploration of the recommendations to the EPC. This includes research and
 meetings with relevant agencies including the General Managers and Chiefs of the KFPD
 and KPPCSD; Contra Costa County, EBMUD, adjacent local cities and other public
 agencies as determined; private entities such as the Sunset View Cemetery; and the
 public. (APPROVAL)
- 3. Where feasible and at no or very low cost (under \$5,000) to the District, implement and document the procedures established for recommendations such as emergency gate openings and signs at Sunset View Cemetery, EBMUD properties, and removable bollards at Hilltop School and Windsor Avenue, red curb paintings at intersections and along streets as may be recommended to the County in cooperation with the KPD, and local neighborhood block meetings to register residents with CCC CWS and Nixle. (APPROVAL)
- 4. Report back to the Board on the research and implementation issues on a regular basis and as needed for policy direction, budgetary issues or other action by the KFPD board. (APPROVAL)

Background:

The Kensington Evacuation Research Project prepared January 8, 2020 analyzes street conditions and traffic patterns under differing scenarios to develop an actionable evacuation plan in the event of a major disaster. The report identifies 43 recommendations in key areas of Evacuation Plan Review, Field Survey, and Network Analysis. The recommendations include a wide range of complexity and potential cost, from policies, procedures and coordination with adjacent agencies to physical changes in traffic movement, parking and infrastructure improvements. Whereas some of the recommendation will be easier to implement and others not feasible or cost-prohibitive, the EPC feels that they all deserve serious consideration.

We would like to move forward with the most feasible recommendations in advance of the 2020 fire season. This is a multi-year project for many of the more complicated recommendations and especially those requiring public input and participation. Some recommendations could move forward more quickly and it is recommended that they be implemented as soon as possible.

KENSINGTON EVACUATION RESEARCH PROJECT

EXECUTIVE SUMMARY

Stephen Wong

Ian Martin

Jeremy Halpern

University of California, Berkeley

February 4, 2020

Overview of Tasks

The community of Kensington, California in Contra Costa County faces multiple risks from natural hazards due to its unique geography, especially from wildfires and earthquakes. Consequently, the Kensington Fire Board and community members requested a research project to begin building a community evacuation plan. The final report details all aspects of the research project and creates a series of recommendations for the community of Kensington to consider when building a wildfire evacuation plan and a transportation response strategy. The report:

- Defines the evacuation problem statement for Kensington;
- Summarizes requests for obtaining official right-of-way maps;
- Reviews local emergency and evacuation preparedness guides and plans;
- Reviews academic literature on wildfire evacuations;
- Documents a data protocol for a field survey of Kensington street conditions;
- Analyzes street condition data from the field survey of Kensington streets;
- Provides methodology and results for a network analysis of Kensington;
- Identifies critical intersections, road links, and gathering points for evacuations;
- Provides recommendations for developing a Kensington evacuation plan.

These tasks provide the starting point for the community of Kensington to develop an actionable evacuation plan in the event of a major disaster. We highlight the two primary data-based tasks from the report in the following sections of this executive summary.

Field Survey of Kensington Streets

In Fall 2019, we conducted a field survey of Kensington street conditions to capture a "worst-case" scenario for a wildfire evacuation. We determined that a "worst-case" scenario would occur at night when most of the population would be home and parking occupancy along streets would be highest. Populations would also be higher during the weekday (as opposed to a weekend) due to weekend travel and vacations. Consequently, we collected data on weekdays (Monday through Thursday) between the hours of 5:00 and 8:00AM or between the hours of 8:00 and 11:00PM. A final day of collection occurred during the daytime to qualitatively assess paths and stairs and gather additional visual evidence of key bottlenecks. The field survey collected the following data:

- Centerline markings
- Minimum lane width
- Percent of street length under 20 feet wide
- Percent of street length containing parked vehicles
- Vegetation (both tree cover and underbrush)

- Roadway grades
- Intersection information
- Walking path conditions

Key results from the field survey of Kensington streets included:

- Minimal centerline markings across the community but some designated throughroutes that relied on multiple roads;
- Extremely narrow streets (measured at the narrowest pinch point) of under seven feet on many segments, particularly in the southeast quadrant of Kensington;
- Majority of streets in Kensington with a minimum lane width under ten feet, caused by several issues including: parked vehicles, deep gutters, non-navigable driveways, and narrow rights-of-way, and other obstructions (such as poles);
- Nearly all street segments with at least one pinch-point and a significant number of streets with more than 50% of their length as pinch points (including major through streets);
- Significant portion of Kensington streets with over 25% of the length occupied by parked vehicles, which is an indirect measure of parking demand and potential hazards;
- High vegetation levels in the southwest and southeast part of Kensington and along major routes that could block exits or lead to additional fire danger while evacuating;
- Steep inclines, including along some routes with centerline markings and minimal pinch points, which could slow evacuations;
- Minimal traffic controls at intersections and unconventional intersections that could be hazardous during an evacuation;
- Minimal signage of walking paths and varying conditions of paths with the highest quality ones in the southwest quadrant and the most overgrown or unmaintained in the southeast and northeast quadrants, indicating potential evacuation danger;
- Four additional connections identified Sunset View Cemetery, a connection from the community center to the school, a connection from Windsor Avenue to the community center, and an East Bay Municipal Utility District access road along Summit Reservoir - that would require removal of gates or bollards for evacuation access.

Network Analysis

We also conducted a network analysis of Kensington streets to uncover highly used routes, problematic links, and busy intersections. A closest facility model was used with the Network Analyst tool in ArcGIS. The model spatially assigns "incidents" to the closest "facilities" via the shortest route. In this scenario, the incidents are the nodes simulating

Kensington's population and the facilities are the designated exit routes. Nodes, including intersections and dead ends, were used as origin points. We conducted nine scenarios with different assumptions:

- Local approach (all exits at Kensington borders);
- Regional approach (four chosen exits in El Cerrito and Berkeley);
- Northern wildfire (no northern exits);
- Southern wildfire (no southern exits);
- Cemetery access; and
- No cemetery access.

We found several key results from the network analysis across the nine scenarios.

- Under shortest-path conditions, evacuees sometimes opted to travel uphill or towards the wildland-urban interface, which would create extensive conflicts and potential fire risks;
- Under shortest-path conditions, evacuees took faster but narrow roads, causing high congestion particularly in the southeast quadrant and on key intersections that do not have any traffic control;
- Under a regional analysis, significant queuing of vehicles along major roads (including those in other jurisdictions) would lead to heavy congestion;
- Under a regional analysis with the cemetery open, a significant amount of evacuees in the middle of Kensington (30% overall) would choose to evacuate through the cemetery;
- For both fire directions with the cemetery open, a significant number of evacuees would route through the cemetery, which would increase with more blocked egress points;
- For both fire directions, smaller roads often experienced a rapid increase in evacuees since their nearest egress was eliminated;
- Consistently across scenarios, Arlington Avenue, Grizzly Peak Boulevard, and Colusa Avenue were key routes for evacuees.

Key Recommendations

Based on the results from the field survey and network analysis, along with review of local evacuation plans and wildfire evacuation literature, we developed a series of recommendations for Kensington.

Literature and Evacuation Plan Review Recommendations

• Kensington should ensure that emergency response plans, evacuation plans, reentry plans, preparedness guides, and fire suppression activity guides are free and easily accessible to the public online and in print.

- Officials should consider developing joint evacuation and emergency plans with neighboring communities, specifically El Cerrito and Berkeley. Plans need to state how evacuees from Kensington may impact those jurisdictions.
- Kensington should develop a campaign that encourages residents to sign up for emergency alerts for both Contra Costa and Alameda counties. This campaign should attempt to reach a critical mass of registered users to ensure that information is widely distributed.
- Kensington officials should be proactive in issuing evacuation orders to ensure that evacuees have time to leave.
- Mandatory evacuation orders and wildfire information should be dispersed consistently across multiple platforms to increase knowledge and reduce confusions and rumors.
- Kensington should consider supplementing official orders with information to Community Emergency Response Teams (CERTs) and neighborhood-based groups to encourage evacuations.

Field Survey Recommendations

- First responders should identify uphill routes for emergency vehicles that minimize conflicts with downhill traffic.
- Kensington should consider reducing vegetation where possible along major evacuation routes.
- Kensington should examine the potential for emergency personnel to remove bollards by Kensington Elementary School.
- Emergency personnel should consider using the EBMUD access road at Summit Reservoir as an alternate route for emergency vehicles. In extreme circumstances, the EBMUD access road could be used to evacuate vehicles.
- Officials should work with Contra Costa county to further establish "clear zones" at intersections to reduce congestion and improve turning ability of vehicles.
- Officials should investigate alternate gutter designs that could enable greater right of way width, particularly for installation in the southeast quadrant along segments of Beloit, Cambridge, Columbia, Trinity, and Willamette Avenues.
- Kensington and/or neighborhood groups should add clearly visible signage at both ends of each segment of the pathway network, and vegetation along the paths should be managed to allow safe passage during an emergency.
- Kensington should improve wayfinding regarding evacuation routes and gathering points.

Network Analysis Recommendations

- Kensington should consider designating identified road combinations as primary evacuation routes for wildfires (see report for recommended routes).
- Fire, police, and/or community officials should have access to the Sunset View Cemetery gate. Officials need to create an arrangement with cemetery personnel to ensure that the gate can be opened at any time.
- Kensington should consider improving Sunset Drive and the nearby area, especially if Kensington intends to use the cemetery for evacuation.
- Kensington should consider deploying traffic coordinators at key intersections to facilitate more efficient traffic flow. They should have a system to communicate with each other and central command.
- Kensington officials should consider instituting one-way directions (either all the time or only red flag warning days) along roads particularly in the southeast quadrant. Parking restrictions at some pinch points may also be necessary, particularly for roads that could be bidirectional.
- In the case of a wildfire (regardless of directionality), Kensington should establish strong coordination with El Cerrito regarding traffic supervision and direction at the intersection of Fairmount Avenue and Colusa Avenue, or work with El Cerrito to define alternate east-west routes.

Conclusion

Overall, Kensington should consider the following transportation changes to improve evacuation outcomes, reduce congestion, and improve flow through the community:

- Removing some on-street parking and/or restricting parking during red flag days, particularly on suggested evacuation routes and roads with enough width for two lanes;
- Designating some very narrow roads as one-way traffic permanently or for red flag days, particularly on highly impacted links;
- Improving intersection signage with yield signs as appropriate to improve flow through the intersection and set precedent to evacuation routes;
- Removing several spaces of parking near tight, unconventional, and/or critical intersections to improve turning radii and set staging areas for first responders;
- Considering some two-way streets as single direction downhill in an evacuation (e.g., Berkeley Park Blvd, Coventry Rd, Moeser Ln, Sunset Dr, all roads within the cemetery); and
- Encouraging residents to park vehicles in driveways or as far off the street as possible before potential emergencies.

RE: Fire Chief's Report for June 2020 Board Meeting

Run Reports

There were 31 calls for service that occurred during the month of May in the community of Kensington which is 9 more than the previous month when the Department experienced a drastic decrease. The increase in medicals plus two structure fires added to these totals. During this same time, Engine 165 responded to a total of 44 calls in all the El Cerrito/Kensington districts which is an increase of 5 incidents over the number of calls from last month. The "Incident Log" included in the Board packets will provided more details on the dates, times, locations, and incident types for these calls. The next update discusses possible reasons for these drastic decreases in calls.

Structure Fires

On May 12th, the Fire Department responded to a reported structure fire in the 200 block of Trinity Avenue. In addition to the El Cerrito/Kensington engines, resources responded from Berkeley and Richmond to assist. Fortunately upon arrival, crews were informed that the fire had occurred in the garage but was now out. Upon investigating it was discovered that one of the residents had emptied out an ash tray into a garbage can in the garage that also contained some dry leaves. The fire was contained to the trash can and a throw rug that it was sitting on.

On May 25th, there was another reported structure fire in the 200 block of Cambridge Avenue. Again, in addition to the El Cerrito/Kensington engines, resources from Berkeley and Richmond responded to assist. Upon arrival, the fire was located outside the structure in the back yard where the resident had lit their BBQ but had not taken of the grill cover all the way off. When the cover caught fire, it also melted the propane hose to the burners. The fire had been extinguished by the home owner, but the gas was still leaking. Crews isolated the propane tank and insured there was no extension of the fire into the structure.

Corona Virus Update

The Corona Virus or COVID-19 pandemic continues to present challenges for the Fire Department. We continue to practice all the County recommended and mandated protocols as well as we have started morning health screening for all our personnel in which when they arrive at work and every morning while on duty they monitor their temperature as well as complete a health screening questionnaire.

Vegetation Management

The Fire Prevention Officer has completed his first round of inspections in Kensington. This year there was a drastic improvement in the number of violations with only 90 parcels being issued violations versus the 300 yesterday. These properties were mailed notices and have 30 days to remedy the problem. Those that do not will be cited again and we will return to the Board to issue nuisance notices and seek approval for forced abatements.

Register with the Contra Costa County Community Warning System

It cannot be stressed enough the importance to take a moment to register cell phones with the Contra Costa County Community Warning System (CWS). CWS will alert you when life-threatening incidents, like wildfire or power shutdowns, occur. www.cwsalerts.com
